TECHNOLOGY CENTER 2800

Dear Sir:

In response to the Office action mailed 06/10/02, kindly amend the above-identified applications as follows:

In the specification:

Amend the paragraph beginning at the bottom of page 3 through line 8 of page 4 as follows:

C) "The disclosed invention prevents system damage due to storms, while still producing power, by adjusting the impedance of the system from the optimum system efficiency values to high levels that impede the production of large motions or speeds. The technique for system impedance

CERTIFICATION OF FACSIMILE TRANSMISSION

I hereby certify that this correspondence is being facsimile transmitted to the Patent and Trademark Office (Fax No. (703)308-7722) on September 10, 2002.
